Hi David,

Thank you for your email and the update on the application.

I did see the consultation responses online and I have been working through them the last week. Regarding the Air Quality considerations please see the following documents:

- Air Quality Note
- SCAIL summary for Existing System
- SCAIL form for Existing Temporary Field Heaps
- SCAIL summary for Proposed System
- SCAIL form for proposed slurry store
- SCAIL form for proposed manure store

Also regarding the highways response the applicant would like to avoid any pre-commencement conditions if possible, as such please see the attached documents addressing the proposed condition:

- Public Right of Way Treatment Plan
- Construction Traffic Management Plan - Public Right of Way

I hope this will be acceptable as I appreciate the application will be delayed anyway with the re-consultation with Natural England for the air quality comments. Please take this email as confirmation of agreement to the extension time as proposed.

If you have any queries please let me know.

Kind regards,

David Harris-Watkins
