

> CONNECTIVITY STATEMENT

PROJECT NAME: Main Road, Stanton under Barton, Hinkley and Bosworth, Leicestershire, LE67 9TL

Our Gig connection adheres to the highest industry standards and specifications, ensuring that it not only meets but also exceeds the stringent criteria set forth by Part R of the Building Regulations. We have meticulously designed and implemented our Gig connection infrastructure to guarantee optimal performance, reliability, and safety in residential and commercial buildings, in accordance with the relevant regulations and guidelines.

In addition to satisfying Part R of the Building Regulations, our Gig connection is engineered to fulfil all necessary prerequisites for NHBC applications. We understand the importance of NHBC approval in the construction and housing sectors, and we have taken every measure to ensure that our Gig connection aligns seamlessly with NHBC requirements.

By choosing Pulse Fibre for your Gig connection needs, you can have confidence that you are selecting a solution that not only provides exceptional internet connectivity but also meets the essential criteria for regulatory compliance and NHBC applications.

A handwritten signature in black ink, appearing to read 'R. Buckingham', with a large, stylized flourish extending from the end of the signature.

ROBERT BUCKINGHAM
OPERATIONS DIRECTOR

If you have any further questions or require additional information regarding the compliance of our Gig connection with Part R, please do not hesitate to contact us. We are committed to delivering top-quality services and ensuring that our solutions meet and exceed industry standards.
