Hi James,

09/00426/FUL; Market Bosworth Rugby Football Club, Cadeby Lane, Cadeby

These floodlights are proposed very close to where a Roman coin hoard was found in 2004. I have seen the drawings submitted that show the below ground impact of each light but can you or the agent confirm how the electricity will be sourced for the lights? (i.e. do they need to cable to link the 4 and then take that to a source off site at all) (sorry for being ignorant).

Thanks
