

Scale 1:50

Document size: A3

Western edge of tarmac to existing gateway, laid when council compulsorily purchased roadside land from what was then Ivy Cottage Farm in the 1970s in order to widen Peckleton Common Road (digging ditch, planting hedge and moving fence southwards), does not quite make a 90 degree angle at the roadside with most western gatepost. We will fill that gap so both accesses are integrated. Hence 4.4m at roadside.

Point B
