Hello,

I appreciate the requirement here for crown lifting operations however there is no quantification of measurement. I would be happy to approve that the trees in question be crown lifted to 6m from ground level with no further removal or pruning of live growth. This should facilitate the movement of tractors and associated equipment as mentioned in the application.

Comments: The removal of deadwood isn't subject to TPO restrictions and is an acceptable practice in this instance.

Furthermore all works must be in accordance with BS3998:2010, this is auditable by the Local Authority post work completion.

Kind Regards,
Simon Green

Kind regards
