

CONSULTATION TEMPLATE RESPONSE FROM LEICESTERSHIRE COUNTY COUNCIL:

ECOLOGY AND BIODIVERSITY PLANNING ADVICE

COUNTY, DISTRICT OR BOROUGH	Hinckley and Bosworth Borough Council
APPLICATION NUMBER	25/00626/HOU (3 rd Reconsultation)
ADDRESS	16 Tower Road Earl Shilton Leicester Leicestershire LE9 7EG
DESCRIPTION OF DEVELOPMENT	Erection of a rear single and two storey extension.
PLANNING CASE OFFICER	Zahra Jam-Rotbeh
DEPARTMENT	Ecology
PLANNING ECOLOGY OFFICER	Olivia Larter
DATE OF COMMENTS	6 August 2026
ECOLOGICAL DOCUMENTS REVIEWED:	
• Bat Emergence and Re-Entry Survey (Arbtech, May 2026) • Preliminary Roost Assessment (Arbtech, November 2025) • Photographs of the existing roof structure	
SUMMARY RECOMMENDATION:	
No comment	☐
No objection (for recommended conditions or informatives- see below)	☒
Recommend Refusal	☐
Holding Objection - Further information required	☐
REASON FOR RECOMMENDATION:	
We have reviewed the additionally submitted Bat Emergence and Re-Entry Survey (Arbtech, May 2026) relating to the likely impacts of development on bats, European Protected Species and identification of appropriate mitigation measures. We are now satisfied that there is sufficient ecological information available to support determination of this application. We note that the single bat emergence survey carried out on building B1 did not record any emergence. Therefore, no further surveys or licencing is required.	

This provides certainty for the LPA of the likely impacts on designated sites, protected and Priority species & habitats and, with appropriate mitigation measures secured, the development can be made acceptable.

The mitigation measures identified in the Bat Emergence and Re-Entry Survey (Arbtech, May 2026) should be secured by a condition of any consent and implemented in full. This is necessary to conserve and enhance protected and Priority species particularly those recorded in the locality.

With regard to mandatory biodiversity net gains, it is highlighted that applications are required to deliver a mandatory 10% measurable biodiversity net gain, unless exempt under [paragraph 17 of Schedule 7A of the Town and Country Planning Act 1990](#) and the [Biodiversity Gain Requirements \(Exemptions\) Regulations 2024](#). As a result, we are satisfied that this application is exempt from mandatory biodiversity net gains, as the development meets the householder exemption.

We also support the proposed reasonable biodiversity enhancements for protected, Priority and threatened species, which have been recommended in the Bat Emergence and Re-Entry Survey (Arbtech, May 2026) to secure net gains for biodiversity, as outlined under Paragraph 187d and 193d of the National Planning Policy Framework (December 2024). Reasonable biodiversity enhancement measures are a separate matter to mandatory biodiversity net gains, and the finalised details should be outlined within a separate Biodiversity Enhancement Strategy to be secured as a condition of any consent.

This will enable LPA to demonstrate its compliance with its statutory duties including its biodiversity duty under s40 NERC Act 2006 (as amended) and delivery of mandatory Biodiversity Net Gain.

Impacts will be minimised such that the proposal is acceptable, subject to the conditions below based on BS42020:2013. We recommend that submission for approval and implementation of the details below should be a condition of any planning consent.

ANY RECOMMENDED CONDITIONS TO BE APPLIED:

1. ACTION REQUIRED IN ACCORDANCE WITH ECOLOGICAL APPRAISAL RECOMMENDATIONS

“All mitigation measures and/or works shall be carried out in accordance with the details contained in the Bat Emergence and Re-Entry Survey (Arbtech, May 2026) as already submitted with the planning application and agreed in principle with the local planning authority prior to determination.

This may include the appointment of an appropriately competent person e.g. an ecological clerk of works (ECoW) to provide on-site ecological expertise during construction. The appointed person shall undertake all activities, and works shall be carried out, in accordance with the approved details.”

	Reason: To conserve protected and Priority species and allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 (as amended) and s40 of the NERC Act 2006 (as amended).
2.	PRIOR TO ANY WORKS ABOVE SLAB LEVEL: BIODIVERSITY ENHANCEMENT LAYOUT <i>“A Biodiversity Enhancement Layout for biodiversity enhancements listed in xxx report shall be submitted to and approved in writing by the local planning authority.</i> <i>The content of the Biodiversity Enhancement Layout shall include the following:</i> <i>a) detailed designs or product descriptions for biodiversity enhancements; and</i> <i>b) locations, orientations and heights for biodiversity enhancements on appropriate drawings.</i> <i>The enhancement measures shall be implemented in accordance with the approved details prior to occupation and all features shall be retained in that manner thereafter.”</i> Reason: To enhance protected, Priority and threatened species and allow the LPA to discharge its duties under paragraph 187d of the NPPF 2024 and s40 of the NERC Act 2006 (as amended).
ANY RECOMMENDED INFORMATIVES TO BE APPLIED:	

Note for applicants: Please be aware that this advice is provided to the Local Planning Authority through a Service Level Agreement between the Local Planning Authority and Leicestershire County Council Ecology Team. Its purpose is to discharge the legal duties of the determining authority under The Local Authorities (Functions and Responsibilities) Regulations (2000), Regulations 4.

If you have any queries about the content, please correspond directly with the Planning Officer assigned to the planning application or discharge of condition application. We are unable to respond directly to applicant enquiries regarding the advice that we have provided to the determining authority.

The following legislation is used to assist in the assessment of planning applications:

Legislation source	Reference
National Planning Policy Framework	Paragraphs relevant to biodiversity, biodiversity net gain, ecological connectivity and protected species
Environment Act 2021	Mandatory Net Gain Biodiversity Duty Local Nature Recovery Strategy

District or Borough Local Plan and supporting SPDs	Local Plan policy
ODPM circular 06/2005: Biodiversity and Geological Conservation	Requirement for species survey work and mitigation recommendations to be carried out prior to the determination of a planning application. Paras. 98 and 99
NERC Act 2006 (as amended)	Biodiversity Duty (see also Environment Act 2021) Section 41, habitats and species of Principal Importance (previously BAP)
Various International, European and National laws in relation to the protection of species and habitats	International and national site protection: Ramsar sites (from Ramsar Convention), (Natura 2000 sites include SACs and SPAs), SSSIs, National Nature Reserves, Local Wildlife Sites, Local Nature Reserves. Habitats and Species protection: Conservation of Habitats and Species Regulations 2017 (as amended) (protected sites and species). Wildlife and Countryside Act 1981 (as amended) including special Schedule 1, Natural England Standing Advice. Protection of Badgers Act 1992.
