Dear Louise,
Thank you for the below information. Considering the application is not to be deferred, we would strongly recommend that a condition for a Historic Building Record, equivalent to a Level 2 Survey be attached to any planning permission. For example:

1. Alterations shall not take place until the applicant, or their agents or successors in title, has secured the implementation of a programme of historic building recording. This work shall be conducted in accordance with a written scheme of investigation, which has been submitted and approved in writing by the planning authority.

Reason: To ensure satisfactory historic building recording.

This would replace the previous advice requesting that an assessment be undertaken.
Kind regards

Lucy Griffin (Assistant Planning Archaeologist)

Thanks Lucy for your reply,

There is a structural survey included with the application but not an archaeological one. The Conservation Officer has been consulted. The applicant has stated his willingness to carry out the necessary survey and has suggested the Leicestershire University Service.

We are not in a position to defer the application but hope that the information can be provided in the next few weeks depending on the University workload.

Dear Mrs Forman
Please find an advice letter for the above application attached. We are advising pre-determination work. It may be that a building assessment exists, but it has not been submitted with the application (as far as I can tell). I have been trying to track it down but to no avail. Please contact me should you wish to discuss the above application.
Kind regards
