To: Planning Folder
Subject: invalid reasons for 07/01112/FUL

Drawing errors, please amend accordingly:

Residential Block A:

1) The first floor windows (2nd. 3rd, and 6th in from left to right) on the car park elevation (drawing 420.P7) are drawn as doors on the first floor plan (drawing 220.P5)
2) All second floor windows should be drawn as velux windows on the second floor plan (drawing 220.P5) so it corresponds with the car park elevation (drawing 420.P7). Currently the second floor plan is drawn as a mix of flat windows and doors
3) The window and door positions along all 3 floors of the car park elevation (drawing 420.P7) do not correspond with the floor plans (drawing 220.P5)
4) The first and second floor window positions on the road side elevation (drawing 420.P7) do not correspond with the first and second floor plans (drawing 220.P5)

Residential Block B:

1) The first floor windows (2nd and 4th in from left to right) on the car park elevation (drawing 422.P3) are drawn as doors on the first floor plan (drawing 220.P5)
2) All second floor windows should be drawn as velux windows on the second floor plan (drawing 220.P5) so it corresponds with the car park elevation (drawing 422.P3). Currently the second floor plan is drawn as a mix of flat windows and door
3) The first and second floor window positions on the entrance elevation (drawing 422.P3) do not correspond with the first and second floor plans (drawing 220.P5)
4) The second floor WC window as drawn on the floor plan (drawing 220.P5) is not drawn on the side elevation (drawing 422.P3)
