Hi James,

Thanks for your email.

We have reviewed additional information provided by LCC in regards to the financial contribution and the proposed highway improvement scheme at A5 Dodwells junction. I can confirm that remaining matters in relation to the assessment of the development proposals have been now resolved. We are content that the marginal traffic impact of the proposals can be accommodated on the Strategic Road Network.

We are preparing a formal response to issue to the Local Planning Authority, which will confirm our updated position and lift the holding recommendation on the planning application.

I trust this is satisfactory.

Kind regards
Patrick

Hi Patrick,

Sorry to chase again, but my understanding is that the only remaining/outstanding issue on this site now is the NH response.

Could you advise when we are likely to receive a response please?

Regards,

James Parker
Director

James,

We have requested further information from LCC regarding the basis of the financial contribution and the nature of the mitigation being proposed.

I appreciate your patience on this matter.

Regards
Patrick

Hi all,

Further to my previous emails regarding the outstanding PRTM flow information request (which LCC's modelling team has answered), and the proposed Dodwells mitigation scheme; can someone please come back to me to provide an update and confirm whether or not all outstanding issues have now been addressed?

Many thanks.

Regards,

James Parker
Director
