Hi Simon

Further to our meeting on Wednesday 6 December I said I would email

In summary the application is currently drafted for refusal on four grounds:

1. Effect on countryside/character of the area/DM4 and DM10
2. Unsustainable location of the site remote from services and facilities/DM17
3. Detrimental effect on amenity of future occupiers as a result of limited outlook from bedroom windows either side of the main entrance
4. Lack of info regarding trees

From our conversation it felt that points 3 and 4 could be addressed. Can you please confirm agreement to an extension of time for determination of the application to allow for this? During the meeting I got the impression that you thought the work that Stefan Bodnar had done covered the tree issue. His work dealt with biodiversity but did not address the information that the Council's arboricultural officer needed

At the conclusion of the meeting I think there was a preferred course of action for the applicant which entailed the following:

- seek to address concerns relating to points 4 and 5
- the application was not going to go to Design Midlands
- there was not going to be a legal agreement that secured the dwelling as later living accommodation
- an appeal would be made
- there will be a resubmitted application that you will speak to your ward councillor about calling in so that the application can go to Planning Committee

I am aware that our Policy Team is looking at the issue of later living accommodation but this is in its earliest stages and will not impact on the current application

We look forward to hearing from you

Kind regards

Tim
