Good morning,

**23/01199/FUL | Erection of a calf rearing building and lean-to workshop following the demolition of one bay of existing building | Stud Farm Sibson Lane Shenton Nuneaton Leicestershire CV13 6DA**

I have no objections to the application as from the photographs provided, the area of works look unlikely to support protected species or notable habitats. These types of barns can support nesting birds therefore I do recommend that the works are carried out outside of the nesting season, or checked beforehand.

I recommend the following informative is attached to any planning permission:

- Nesting birds are protected under the Wildlife & Countryside Act 1981 (as amended); therefore building demolition should take place outside the breeding season (March to August inclusive) unless carefully checked beforehand by a suitably qualified person.

Kind regards,

**Nikki Morton MSci MCIEEM**
