Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Permission is sought to locate a shipping container on land at Ratby Sports club for the storage of archery equipment.

The container is 30x 8ft and is owned and used exclusively by Burroughs Hill Bowmen Archery club for the storage of its equipment. The container has been on site for the past 9 1/2 yrs.

We have an agreement with the new owner of Ratby Sports club, to continue to use the football pitches for practicing archery, principally between April and September when the fields are not being used for football.

There are very few sports grounds that are able to host an archery club due to the size of field and peripheral area required because of safety considerations. In order for our insurance to be valid, we need to comply with these field dimensions as directed by our governing body, Archery GB. If we are unable to remain using this location, we would need to look for another host, thus meaning the loss of a sporting facility in this local area.

The container is currently positioned on unused grassland between two of the lower football pitches at the sports club. It is a temporary structure and can be moved.

The new owner of the sports club, Anthony Blanchard, has started to improve the grounds by clearing a lot of scrubland, removing old debris left by various football teams and put up security fencing which has improved security and reduced anti social activity on the land. Mr Blanchard intends to make changes to the grounds and existing pavilion and has applied for permission to make these improvements. He had added additional portacabins to the site and when a planning officer visited, a removal enforcement notice was put on all the containers, including the one owned by Burroughs Hill Bowmen, Reference 2300258UNBLDS.

Having spoken to the enforcement officer, Lindon Morgan, guidance has been given to its possible relocation. With these criteria in mind, this application has been submitted.

The container will be moved from its current location and repositioned onto the raised ground next to the upper football pitches away from the water course. It will be positioned alongside the southern boundary hedge on an area of unused land. The proposed location is an area of rough grass and hawthorn scrub some of which we will trim to create a clear area to locate the container.

Currently the container is orange, but it can be painted to blend in more with surroundings and the area around the container can be landscaped to reduce its visual impact.

Has the work or change of use already started?

Existing Use

Please describe the current use of the site

The site is currently Ratby sports club, which is an managed grassland area which includes 3 football pitches, a cricket pitch and an unused building, previously used as the cricket pavilion. It is accessed directly from Desford Lane. A gravel track crosses the site to provide access. One football pitch is on an a raised area approximately 10 ft higher than the rest of the site. The grounds are bounded by hedgerows and trees along the Desford Lane boundary, with a hedge, fencing and a stream forming part the boundary line along the lower area of the site which backs onto Ratby Medical Centre.

Is the site currently vacant?

☐ Yes, on land adjacent to or near the proposed development

☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

☐ Yes

☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

Application is for a temporary structure being moved from one area of rough grass to another

Note: Please read the help text for further information why developments may be exempt or not in scope.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
