Hi David,

Apologies I missed this, please see below.

The MUGA will be used as an area for teaching & used as an all weather recreational space as it will be replacing an area that is currently used for sports/recreational use between the hours of 8am-6pm. Currently, all external hirers including sports groups who wish to use our facilities receive an affiliation pack upon application to use our site. Before completing the delivery of the project, The Market Bosworth School will amend our affiliation pack to include and advise appropriate levels of noise during use. A copy of the amended affiliation pack will be available for review if required.

Many thanks

Tom

Hi David,

Thanks for your email.

The HBBC Pollution Officers comments were 'With regard to potential noise issues what are the proposed hours of use of the MUGA. How would noise be controlled after school hours (for example would there be a user agreement etc which would include noise?)'.

It would be helpful if you could address his comments but no a noise assessment won't be necessary I don't think. It's an existing school with an existing play/ sports area but if you can reply and we can bring this to a conclusion with the Pollution Officer.

I will be as responsive as possible for the duration of this application and hopefully the applicant will get 5 or 6 weeks of a headstart before school reopens.

With regards,

David Spring
