Debbie
I confirm that, following our discussion, I accept that the pruning of this small tree will have limited effect on the amenity value of the tall shrub and I withdraw my objection.

Regards

Barry

Subject: Works to Trees

Hi Barry,

You have objected to one of my applications for works to a tree on Grove Road Burbage.

The application form states that they want to prune a Mountain Ash tree, but it is in fact a Cotoneaster tree. It is only a small tree on the neighbouring boundary and they just want to trim it back.

I think that maybe you have misread the application, or maybe you meant to object to a different one, because you have said that you object to the loss of it.

Can you please clarify

Thanks
Deb
