Comments Details

I have viewed the plans to consider the implications for the waste collections, the council operates a kerbside service from the boundary of the public highway, please ensure there is a safe and adequate space available for wheeled bins on collection days.

It would be advisable for the area to be enclosed with being next to the public highway.

Comments:

No development shall take place until a scheme makes adequate provision for waste and recycling storage of containers and collection across the site which has been submitted to and approved in writing to the Local Planning authority. The details should address accessibility to storage facilities and confirm adequate space is provided at the adopted highway boundary to store and service wheeled containers.
