Tobermore Secura Support Timeline

Why Work With an SRC

What is a Secura Registered Contractor?

The Tobermore Secura Registered Contractor scheme is a network of skilled professionals who have experience in the successful installation of Secura Retaining Walls.

Why use Secura Registered Contractors?

Here's why developers already choose our registered contractors:

- They are experienced in Secura segmental retaining wall construction so you can guarantee quality workmanship.
- It ensures smooth construction on site that in turn reduces costly delays.
- They have experience in tendering for Secura retaining walls, so you know you're getting accurate pricing.
- We only approve well established contractors so you can have confidence in your decision.
- Our registered contractors have access to exclusive resources that can benefit everyone involved.
- You can receive greater onsite support from Tobermore.

Toolbox Talk Overview

What is a Toolbox Talk?

The Tobermore Toolbox Talk is an explanation and delivery of the Secura Grand installation guidelines. A Toolbox Talk gives a detailed explanation of the installation guidelines applicable to your site and assists with the successful and high-quality installation of the Secura Grand walls on site.

Anyone can access a Toolbox Talk, whether the site be a large housing development or a one-off private house. There are two formats of delivery to suit every wall installer.

On-site or Virtual?

- We offer a pre-recorded presentation that can be played to the installation team prior to construction and rewatched during construction. This allows for maximum flexibility if all stakeholders cannot make a site meeting.
- If you want a more hands-on experience, then we also offer in-person meetings where your Tobermore representative will present the installation guidelines and be on hand to answer any questions you might have.

Please enquire with your local Tobermore representative to book your Toolbox Talk now!

Need a small quantity of Secura Grand to finish your project?

Secura Grand is stocked across the UK at the following branches:

Disclaimer

The design of any retaining wall requires the input of an engineer to assess the unique conditions of every site in respect of loads in conjunction with site and soil conditions. The advice and typical wall designs included here are for information only to assist estimating and initial planning but should not be used for construction.

This document has been prepared based on the information provided by you. As such, this document is provided without liability on the part of Tobermore Concrete Products Limited (Tobermore) to the extent that any such information is inaccurate, incorrect, or incomplete.

You are strongly advised NOT to progress with construction as contemplated by this document until a detailed design drawing has been prepared by a qualified engineer or architect based on a detailed site survey. If the design contemplated in this document is constructed, this will be entirely at your own risk, and without liability on the part of Tobermore.

Tobermore does not exclude or limit in any way its liability to you where it would be unlawful to do so. This includes liability for death or personal injury caused by our negligence and for fraud or fraudulent misrepresentation. In all other respects, Tobermore excludes and/or limits its liability to the maximum possible extent permitted under applicable law. In no circumstances shall Tobermore be liable to you for any loss of profit, loss of business, business interruption, loss of business opportunity, or any indirect or consequential loss or damage whatsoever, arising under or in connection with this preliminary design, even if Tobermore was aware of the possibility that such loss or damage might be incurred by you.

Thank you for considering Tobermore, Secura Grand for your site.
Regards, Tobermore.
