SUMMARY RECOMMENDATION:	
No comment	
No objection (for recommended conditions or informatives- see below)	✓
Recommend Refusal	
Holding Objection - Further information required	
REASON FOR RECOMMENDATION:	
• The proposed works consist of a front porch extension, alterations to existing single storey hipped roof and the addition of a single storey rear extension. • The property is sited within a mainly urbanised area with green spaces such as playing fields and parkland scattered throughout the landscape. • Although the proposals include a larger side extension, the area to be impacted is relatively small and does not extend into the second storey of the building. • Therefore, the impact on local ecology is likely to be minimal. As such, no ecological surveys are required, and we have no objection to the proposed works. • The site falls within a Swift Alert area. However, the proposed development does not allow suitable opportunities for swift boxes to be incorporated into the development.
