SUMMARY RECOMMENDATION:	
No comment	
No objection (for recommended conditions or informatives- see below)	✓
Recommend Refusal	
Holding Objection - Further information required	
REASON FOR RECOMMENDATION:	
• The proposed works consist of a part demolition of the existing rear and the erection of a single storey rear extension. • Sited within a mainly urbanised area with green spaces such as playing fields and parkland scattered throughout the landscape. Connectivity to such spaces, except for small residential gardens, is very limited due to infrastructure surrounding the site. • Although the proposals include a larger side extension, the area to be impacted is relatively small and does not extend into the second storey of the building. • Therefore, the impacts appear to be minimal, and the site considered to have limited suitability for protected species. • As such, no ecological surveys are required, and we have no objection to the proposed works. • The site falls within a Swift Alert area. However, the proposed development does not allow suitable opportunities for swift boxes to be incorporated into the development.
