Ebbony

Thanks for recent e-mail and attached is previous e-mail sent by Dave Taylor regarding Heat Dump - I hope this is sufficient information for you. In regard to the external ductwork it is galvanised finish so has a bright metal appearance associated with galvanised metals and a note to this effect is on the submitted drawing.

Can you give me a call if further information is required as we'd like to resolve this job to everybodies satisfaction asap (as would you no doubt!)

Thanks

Paul
