Comments Details

Commenter Type:	Other
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	We note that once again there is no arboreal specialists report to which we may refer. We must therefore assume that the applicant has interpreted the document correctly. Whilst we agree that works to trees is necessary we would prefer to see a full report. We do however support the attempt to retain this tree. Far too many mature and vintage trees are being lost in Market Bosworth which is having a detrimental effect upon the landscape. We would ask that work is kept to the minimum necessary to save this tree. Furthermore should the actions be unsuccessful the tree must be replaced with a similar tree of the same species.

Kind regards
