No objection (for recommended conditions or informatives- see below)		
Recommend Refusal		
Holding Objection - Further information required		✓
REASON FOR RECOMMENDATION:		
• The proposed works consist of the demolition of the existing concrete shed and construction of a new detached dwelling with associated parking and landscaping within the existing garden. • The site is surrounded by large gardens with mature trees, providing connectivity in the local context for commuting and foraging wildlife species. • The proposed works include demolition, possible tree removal and areas of ground disturbance. There are records of protected species near the development such as bats, badgers and GCN which will need to be considered during development. Therefore, a Preliminary Ecological Appraisal will be required to assess the application site for protected species before determination. • There is a holding objection until this is received.		

- The ODPM Regulations require protected species surveys to be submitted prior to determination of a planning application. It is also essential that the extent that they may be affected by the proposed development is established before the planning permission is granted. Reference: Paragraph 99 of ODPM Circular 06/2005 (Biodiversity and Geological Conservation – Statutory Obligations and their Impact within the Planning System). Therefore, any further surveys recommended within the report would need to be carried out prior to determination.

BNG Specific

- It is accepted that mandatory BNG does not apply as the application is a self-build and custom build development.

Note for applicants: Please be aware that this advice is provided to the Local Planning Authority through a Service Level Agreement between the Local Planning Authority and Leicestershire County Council Ecology Team. Its purpose is to discharge the legal duties of the determining authority under The Local Authorities (Functions and Responsibilities) Regulations (2000), Regulations 4.
