Notes:

- This drawing has been prepared for planning purposes only and shall not be used for tender, construction, procurement, setting out or detailed coordination. Proposed planting shall be coordinated with drainage, services, utilities, easements, foundations and structures at detailed design stage.
- Proposed POS trees as identified with 'R', as well as all street streets and on-plot trees, are expected to need root barriers to take into account the location of proposed services/utilities. Through the process of preparing construction drawings other proposed trees may also need to include root barriers.
- It is the responsibility of the project engineer to design foundations to accommodate all proposed and existing tree and shrub planting, with reference made to NHBC Standards, Parts 4.2, 2014 (Building near Trees.)
- All works in and around existing retained trees are subject to an Arboricultural Method Statement.
- All steps, structures, paving and fencing are by others unless otherwise noted.
