It matters what I think

My concern, is the house for disabled No12 Trenity Vicarage as I have put on bit of paper RG some of my concerns, the amount of traffic that goes there, its like a convoy at certain times they continue to park on Paths which will need repairing soon, an accident waiting to happen public have to walk on roads to get by. I have been told by my neighbour not by council they put in a aplication for an extension do they want to take over street. I would like you or colleagues to come and see for yourself between 9-10.30 AM and 2.30-4 PM traffic wardens never come then to see whats going on.

P.T.O

Some of mini buses belong to Council, and have the nerve to park over neighbours drive or turn round on it. I don't drive but I have visitors and mostly they have to pay at Leisure Centre. I've enquired how much to have a dropped curb and front done £1,000+ money I can't afford.

P.S. What council passed the usage of No 12 (As long as its not on my back door.)

and why didn't I or many others get notification of the extension plans. I am not the only one who complains about the place.

Mrs. L. Young

It matters what you think:

Use this space to let us know your views on local issues that need action...

I live in Trinity Vicarage Rd 2 doors down from the disabled house. The amount of mini buses + Taxis plus workers that come is just rediculous. They park on the paths to get by people have to go on road not but all have disable badges or Hans port but I was told by a Traffic warden they can park on yellow lines as long as they want she was just going to charge a carpet fitter who dropped off a carpet can not sit on my parking space outside my own house my visitors have to pay at Leisure centre HAVE A LOT MORE TO SAY

Your name: HRS L YOUNG

I would like a Councilor to visit. Of my concerns

It's the Lib Dems or Conservatives here!

Lib Dem 19

Con 13

* Number of councillors on Hinckley & Bosworth Council

Labour are out of the race!

Lab 2

Labour have just 2 councillors on the council.

Labour finished 4th in the most recent local elections!

May's local election is between the Lib Dems and Tories!

Another eye-sore goes

Cllrs Stuart Bray and Bron Witherford inspect the work so far.

Work has begun to renovate the former Fludes factory on Hawley Road. This has stood empty for years and has been a real eyesore for people living nearby. We opposed Conservative plans for expensive new council offices and relocating to the refurbished factory will save council taxpayers money every year. The current Council Offices need too much expensive work doing to them to make remaining there a viable alternative.

centre management which will keep it open. The centre provides many essential services and it is vital that these are protected.

Sketchley Brook Plans

We are seeking to ensure that there will be no impact on **Westfield Road** and **Strathmore Road** homes when this new development goes ahead on the other side of the railway line.

Cllr Stuart Bray is also objecting to plans to build 13 flats off Canning Street.

Only the Liberal Democrats work for you all year round!
