SUMMARY RECOMMENDATION:		
No comment		
No objection (for recommended conditions or informatives- see below)		✓
Recommend Refusal		
Holding Objection - Further information required		
REASON FOR RECOMMENDATION:		
• The proposed works consist of demolition of existing timber framed garage and erection of single storey side and rear extension. Sited within an urbanised area with good habitat connectivity in the form of mature trees, leading out into nearby playing fields and a vegetated railway corridor. • Nevertheless, the proposed works affect only a small section of the existing dwelling, do not tie into the current roof structure or roof void and located on existing hardstanding. Given the nature of the proposals, ecological surveys would not be considered proportionate. • Accordingly, no ecological surveys are required, and we have no objection to the proposed works.
