Mr Carl Harris,
17 Hinckley Road,
Earl Shilton,
Leicestershire,
LE9 7LG.

Dear Mr Harris,

RE: Removal of one Silver Birch Tree, 17 Hinckley Road, Earl Shilton

Thank you for your notification which the Local Planning Authority received on 31st December 2008 and which became valid on 6th January 2009 advising of your intention to remove one silver birch tree (Betula pendula) in Earl Shilton Conservation area.

After assessing the notification and visiting the site the Local Planning Authority is of the opinion that this silver birch tree is worthy of a Tree Preservation Order.

The reason for this is the tree is in good condition and is a relatively large specimen for its species. It is clearly visible from Melton Street with a good life expectancy. The number of other mature trees in this area is limited and the tree is considered to contribute significantly to the visual appearance of the Conservation Area.

You will be receiving formal notification of the Tree Preservation Order from the Borough Council's Legal Services section shortly.

Please do not hesitate to contact Denise Bigley on the direct dial number, if you require any further information.

Yours Sincerely
