7. Appraisal

The main consideration in respect to this notification is whether any neighbouring properties have objected and whether the development will impact upon the amenity of any adjoining neighbour.

The application relates to a notification for a larger home extension for a single storey rear extension measuring 4.1 metres in depth to replace an existing extension, 3.3 metres in height to the ridge and 2.2 metres to the eaves. The extension covers the footprint of the existing extension but a little higher than the existing height. It remains clearly subordinate to the main dwelling. The width, depth and height are considered appropriate, and the extension is not visible from the street scene. It is just to the fence on the west of the site but approximately 1.2 metres away from the outbuilding at 3 Priesthills Road. The extension is single storey in scale and therefore there is no significant impact on neighbouring properties. The existing fence reduces potential overlooking into the gardens of adjoining dwellings. There are no comments received as a result of the neighbouring consultation.
