Hi Matt

Following our conversation on teams the requests for POS would remain the same as there are no change in numbers

If they are likely to "over provide " any type of POS on site then this needs to be reflected in the maintenance contribution requests in the S106.

Not sure if I requested this previously but it would be useful that there be a pedestrian access onto Sapcote Road to enable a pedestrian link to Burbage Common down Smithy Lane . There is a current access just outside the red edge of the site with a blue marker – not sure if it's a classed as public footpath (historically I have gone down this way personally) but would be an ideal link (See below)

Burbage Parish Council should, if the application be approved, indicate the type of facilities to be provided on site as they know what is near to the area and or what residents are missing to ensure if pp was granted they at least get something for the community out of it.

Kind Regards

Lesley Keal (Her/She)
