Comments Details

Comments:	Please note: all our collection services are from the boundary to the public highway. Please ensure adequate space on properties to store the various containers and also space at the kerbside (where the properties meet the public highway) for the placement of the containers on the collection day. We do not service from shared driveways, you need to ensure there is adequate space at the boundary with the public highway for up to two bins per property on collection day. It will be the responsibility of the occupiers to ensure that all containers/wheeled bins will be brought to the collection point, please ensure occupiers are advised of the procedure and bin collection points. New Road Construction The road must be constructed to a suitable standard for HGVs with a gross vehicle weight of 32 tonnes and there is sufficient area for the vehicle to turn round.
