Thank you for your consultation in respect of the above planning application. The County Council has considered the application, having regard to the Development Plan, National Planning Policy Guidance and other relevant material considerations. In this particular instance, the County Council, as Minerals and Waste Planning Authority, comments as follows;

The development site is located within a minerals safeguarding area for sand and gravel. However, given the nature, scale and location of the proposal it does not raise significant mineral safeguarding concern. Thus, the MPA does not require a Minerals Assessment for this application and has no objections.

Furthermore, there are no concerns from a waste safeguarding perspective.

Yours Sincerely,

Charlie Cookson  
Planning Officer
