

CONSULTATION TEMPLATE RESPONSE FROM LEICESTERSHIRE COUNTY COUNCIL:

ECOLOGY AND BIODIVERSITY PLANNING ADVICE

COUNTY, DISTRICT OR BOROUGH	Hinckley and Bosworth Borough Council
APPLICATION NUMBER	25/00485/OUT
ADDRESS	Highcliffe 158 Shilton Road Barwell Leicester Leicestershire
DESCRIPTION OF DEVELOPMENT	Outline planning permission for residential development of up to 28 dwellings with associated infrastructure (All matters reserved except for access and layout)
PLANNING CASE OFFICER	Laura Ashton
DEPARTMENT	Ecology
PLANNING ECOLOGY OFFICER	Michael McCoy
DATE OF COMMENTS	17 October 2025
ECOLOGICAL DOCUMENTS REVIEWED:	
<ul style="list-style-type: none"> • Bat Activity Survey (C.B.E consulting, 2025) • Revised Biodiversity Impact Assessment (C.B.E consulting, 2025) 	
SUMMARY RECOMMENDATION:	
No comment	
No objection (for recommended conditions or informatives- see below)	
Recommend Refusal	
Holding Objection - Further information required	✓
REASON FOR RECOMMENDATION:	
<ul style="list-style-type: none"> • We have reviewed the documents above and find the bat activity survey acceptable. The revised Biodiversity Impact Assessment is also acceptable pending the BNG metric. • While information on BNG has been submitted into the planning portal, we have been unable to access this and cannot remove the holding objection until we have reviewed the necessary documents. • The recommendations within the bat activity survey should be followed. • Precautionary measures should be followed – CEMP required 	
ANY RECOMMENDED CONDITIONS TO BE APPLIED:	
<ul style="list-style-type: none"> • No external lighting shall be installed on the site until details (including luminance levels and measures to minimise light spillage) have been submitted to and approved in writing by the Local Planning Authority. External lighting shall only be installed in accordance with 	

<p>the approved details and shall not be replaced with any alternative lighting without the prior permission in writing of the Local Planning Authority.</p> <ul style="list-style-type: none"> No development shall take place (including ground works or vegetation clearance) until an updated badger survey has been submitted to and approved in writing by the Local Planning Authority. This survey is to be carried out within 3 months of the commencement of works on site, unless otherwise agreed. The survey shall include details on mitigation measures for badgers if necessary (such as badger gates). All works are to proceed strictly in accordance with the approved document. In line with recommendations set out in Bat Activity Survey (C.B.E consulting, 2025), further activity surveys are required prior to any development works in the appropriate bat activity season as well as post development activity survey to be completed a minimum of 12 months after landscape surface water area is completed. No development shall take place (including ground works or vegetation clearance) until a Construction Environment Management Plan for biodiversity (CEMP: Biodiversity) has been submitted to and approved in writing by the LPA. The CEMP shall include the following details: <ul style="list-style-type: none"> A. Identification of potentially damaging construction activities B. practical measures and sensitive working practices to avoid or reduce impacts during construction on Bats, Badgers, Nesting birds, hedgehogs and reptiles C. timing of works to avoid harm to nesting birds D. responsible persons for overseeing sensitive works E. use of protective fencing where required <p>The approved CEMP shall be adhered to and implemented throughout the construction period, unless otherwise agreed in writing by the LPA.</p> No development shall take place until a biodiversity enhancement scheme has been submitted to and approved in writing by the LPA. Enhancements shall include (but is not limited to) at least four integral bat roost tubes, eight nest bricks/tubes as well as hedgehog and reptile refugia in suitable locations close to the garden boundaries with hedgehog access points. The make/model and their locations should also be included. Any enhancement measures need to be shown on all relevant submitted plans. All works are to proceed strictly in accordance with the approved scheme. 	
ANY RECOMMENDED INFORMATIVES TO BE APPLIED:	
<ul style="list-style-type: none"> All bat species are legally protected under the Wildlife & Countryside Act 1981 (as amended); as such, trees to be removed will require inspection for suitable features that could be used by roosting bats prior to felling. This can be carried out by the arborist completing the works, however if suitable roosting features are identified, evidence of bats, or indeed live bats are found, works should cease, and advice obtained from a licenced bat ecologist. 	
IN THE CASE OF DISCHARGE OF CONDITIONS ONLY:	
(Please confirm which condition(s) is/are being discharged)	
<ul style="list-style-type: none"> N/A 	
BIODIVERSITY NET GAIN (BNG) SECTION	
HAVE MINIMUM NATIONAL INFORMATION REQUIREMENTS BEEN PROVIDED (PPG paragraph 11):	
Confirmation that development is subject to statutory biodiversity gain condition	Y
Pre-development Habitat Plan of existing onsite habitat (to scale)	Y

Pre-development Habitat Value (on date of application or earlier)	Y
Completed Metric Calculation Tool	TBC
Statement of Habitat Degradation where present (with dates and details)	N/A
Reason for proposing an earlier date if applicable (ie. degradation)	N/A
Description of Irreplaceable Habitat where present	N/A
SMALL SITES METRIC ONLY: "Competent person" information (ie. qualifications, skills, experience)	TBC
BNG METRIC INFORMATION missing or incorrect:	
Incomplete or incorrect cells are shown in metric (eg. habitat quantity, type or condition, strategic significance)	TBC
ON-SITE AND OFF-SITE PROPOSALS PRESENT: These should be secured and monitored for 30 years	
Applicant-owned <u>significant onsite</u> BNG is proposed	TBC
Off-site BNG is proposed (eg. BNG units provided to achieve 10% BNG uplift either on applicant-owned land, purchased units or statutory credits) PLEASE NOTE: this is indicative only , confirmed at Biodiversity Gain Plan condition stage	TBC
TYPE OF SIGNIFICANT ON-SITE HABITAT PROPOSED: (using the current government definition ¹)	
Medium or High Distinctiveness	TBC
Large number of units at Low Distinctiveness	TBC
Significant increase in Distinctiveness, Condition or Area	TBC

Note for applicants: Please be aware that this advice is provided to the Local Planning Authority through a Service Level Agreement between the Local Planning Authority and Leicestershire County Council Ecology Team. Its purpose is to discharge the legal duties of the determining authority under The Local Authorities (Functions and Responsibilities) Regulations (2000), Regulations 4.

If you have any queries about the content, please correspond directly with the Planning Officer assigned to the planning application or discharge of condition application. We are unable to respond directly to applicant enquiries regarding the advice that we have provided to the determining authority.

The following legislation is used to assist in the assessment of planning applications:

Legislation source	Reference
National Planning Policy Framework	Paragraphs relevant to biodiversity, biodiversity net gain, ecological connectivity and protected species
Environment Act 2021	Mandatory Net Gain Biodiversity Duty Local Nature Recovery Strategy
District or Borough Local Plan and supporting SPD's	Local Plan policy
