SUMMARY OF ECOLOGICAL DOCUMENTS CONSIDERED:		
Applicant submitted information: Existing and Proposed Site Elevations, Site Location Plan, Proposed Layouts, Protected Species Survey Report (December 2024)		
REASON FOR RECOMMENDATION PROVIDED:		
- The supplied Protected Species Survey Report produced by Matt Cook (B.A.T Ecological, December 2024) is acceptable. It noted no protected species were present and given the negligible suitability for roosting bats as stated in the report, the impact of the proposed development on ecology is likely to be minimal. - Therefore, no further surveys are required, and our holding objection has been removed. - It is worth noting the suitable recommendations stated in Section 6.4 and 6.5 of the B.A.T Ecological report, and we advise the applicants adhere to the recommendations and guidance within these sections. - We have no further comments.
