

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

1. Submission details

1.1 Date

For example, 3/11/2023

1.2 Planning application reference number

1.3 Local planning authority (LPA)

Hinckley & Bosworth Borough Council

1.4 Development site address

If the site does not have an address, enter the OS grid reference.

229 Leicester Road, Markfield, Leicestershire, LE67 9RH

1.5 Describe the development

Tell us about the proposed development and any changes of use (250 words).

The Proposed Development will involve the demolition of the existing garage prior to an extended access drive to a proposed new dwelling and vegetated garden.

2. Developer details

2.1 Applicant name

2.2 Company name

2.3 Address

2.4 Email address

2.5 Telephone number

2.6 Declaration

By signing this declaration, you confirm that the information you give is complete and correct. Any opinions are your genuine opinions.

2.7 Signature

2.8 Date

3. Responsible person details

Tell us about who is responsible for completing the biodiversity gain plan. For example, a consultancy ecologist or planning agent.

3.1 Name

3.2 Company name

3.3 Address

3.4 Email address

3.5 Telephone number

07914 928532

3.6 Declaration

By signing this declaration, you confirm that the information you give is complete and correct. Any opinions are your genuine opinions.

3.7 Signature

A Scott-Swift

3.8 Date

14.04.25

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes

☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

[Find out what you can count towards a development's BNG](#)

No other schemes are counting to the BNG, only the on-site development and off-site BNG (tbc).

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

There are no irreplaceable habitats within the site.

Most of the habitats within the site are of low or very low distinctiveness. Development is focused on an existing building (scoring zero on the metric) and an area of vegetated garden comprising mown lawn and introduced shrubs as well as a non-native and ornamental hedgerow (low distinctiveness). However, it does require the removal of 2x medium trees (moderate distinctiveness), which could not be avoided in order to fit the access drive in past the existing dwelling.

All other medium-sized trees at the site have been accommodated and tree loss has been kept to a minimum along the access track only.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☒ Yes

☐ No

4.6 How will you achieve the target net gain percentage?

☐ On-site

☐ Off-site

☒ Both

4.7 Are any of your on-site enhancements considered 'significant'?

[Find out what counts as a significant on-site enhancement.](#)

☐ Yes

☒ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

n/a

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

0.54

4.10 Explain why you're using off-site biodiversity units

Only answer this question if you're planning to use off-site biodiversity units (250 words).

Any extension to the red line boundary could only include developed land; sealed surface or vegetated garden, which we can't make enhancements to. Given the site is all within a residential curtilage, we are also severely limited on habitats that can be created aside from vegetated garden, which already exists.

4.11 Explain why you're planning to use statutory biodiversity credits

Only answer this question if you're planning to use statutory biodiversity credits (250 words).

n/a

4.12 Do you have a habitat management and monitoring plan?

☐ Yes

☒ No

4.13 Have you used the statutory biodiversity metric tool?

☒ Yes

☐ No

4.14 Biodiversity metric calculation

Send your biodiversity metric calculation to the LPA and enter the file name.

229LeicesterRdBNGMetric.v1.xlsm

4.15 Condition assessments

Send your condition assessments to the LPA and enter the file name.

229LeicesterRd.CondAsst.pdf

4.16 Pre-development habitat survey report and map

Send your baseline habitat survey report and map to the LPA. Enter the file name.

229LeicesterRd.BNGTechNote.v1.pdf

4.17 Post-development habitat map or landscape plan

Send your post-development habitat survey report and map to the LPA. Enter the file name.

229 Leicester Road 1 180225.pdf

4.18 Have you included an approved habitat degradation in the baseline?

If yes, include the relevant consenting body and reference number.

☐ Yes

☒ No

Consenting body

Reference number

5. Irreplaceable habitats

5.1 Does the development impact any irreplaceable habitats?

If yes, tell us if you've submitted an approved compensation plan.

☐ Yes

☒ No

5.2 Have you submitted an approved compensation plan?

☐ Yes

☐ No

6. On-site habitat enhancements

Answer this section if your development includes on-site habitat enhancements.

6.1 Survey date

For example, 3/11/2023

20/03/2025

6.2 Survey constraints

For example, access issues, weather, or seasonal constraints.

No constraints

6.3 Total pre-development biodiversity value

6.6 Will you register and allocate any biodiversity units from your site to other developments?

If yes or provisionally, give details.

☐ Yes

☒ No

6.7 Give details

Tell us about the amount of biodiversity units and the development location (250 words).

7. Off-site habitat enhancements

Answer this section if your development includes off-site habitat enhancements.

7.1 Tell us about the off-site habitat enhancements

Include whether you're delivering the off-site enhancements or buying biodiversity units.

TBC but we have enquired with the Environment Bank about delivery of the required units offsite in the same NCA – Charnwood - Whitwick Habitat Bank which is listed on the Government's Biodiversity Gain Sites Register. This could potentially provide **0.54 habitat units** of Lowland Meadow in order to satisfy the trading rules for the loss of trees along the eastern Site boundary.

An alternative habitat bank provider will be approached for the small number of hedgerow units required as currently The Environment Bank do not appear to offer hedgerow units within the same LPA (Hinckley & Bosworth Borough Council) or NCA (Charnwood) nor in neighbouring areas. Nevertheless, as this is such a small value, it is anticipated that there will be a suitable offsite provider that can deliver these units.

Alternatively, if there is scope within the landscaping details for the site, a native hedgerow (likely in poor condition) 5-10m in length could be planted at the site (details via a landscaping condition) and would achieve 15-89% BNG onsite.

7.2 Biodiversity gain site register reference number

tbc

7.3 How have you secured the off-site habitat enhancements?

Tell us about any responsible bodies and whether you've used an S106 or conservation covenant.
