*See Schedule
TOTAL AREA: 355m²*
- MARGINAL MIX
*Shrubs/Herbaceous/Grasses
TOTAL AREA: 911m²*
- GRAVEL
*40mm of Stone over Membrane
TOTAL AREA: 3m²*

DRAWING NOTES

All tree and shrub locations and species must be taken into consideration by the project Structural Engineer to ensure that foundation design accords with the specifications set out in Chapter 4 of the NHBC Standards. The Landscape Contractor must ensure that plant material is planted in the locations shown and with NO SUBSTITUTIONS made without consulting the Group Landscape Design Department. It is the Landscape Contractor's responsibility to ensure that all underground services have been located and identified in advance of tree pit excavation so that no services are damaged or compromised by tree planting. Any changes to tree positions, species or specifications must be approved by the Group Landscape Design Department. Underground service strips are to be kept free of all plant material. Contractors must comply with all Health and Safety regulations and be aware of project/site specific information including referring to the information set out in the CDM drawings.

SHEET LAYOUT LOCATION PLAN

NOT TO SCALE

CDM LEGEND

Symbol	Brief description of risk.
	Caution overhead / underground services.
	Sewer easement.
	Trees have protection order in place, guarding required.

NOTES:
Principal contractor to ensure all health and safety procedures are being correctly followed in relation to all temporary works.
