Subject: FW: 24/00426/FUL - 34 Mill Hill Rd - Ecology Consultee Response

Hi David,

Apologies for the delay in response - this must have slipped through my net.

The updated Biodiversity Metric is acceptable and shows a net gain of 34.8% on-site through the planting of two small Rowan trees at the front of the property.

The updated metric matches the site block plan; therefore, I am confident that the required net gain will be achieved, and I withdraw my previous holding objection.

Kind Regards,

Dale Devereaux BSc ACIEEM
