Stance: No objections.

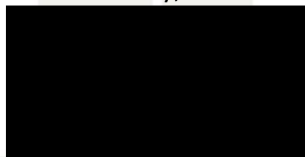

Dear Sullivan,

I am writing in respect of ecological matters for the above application advice request regarding the proposed non-material amendment to planning application 18/01252/OUT. Reduction in width of public footpath that forms part of the S278 entrance works.

I have accessed the available information from the Hinkley & Bosworth's online planning portal submitted with regards to above application.

I have no overall holding objection to the two proposed sections of hedgerow to be removed as indicated on the Hedge Removal Plan, Drg No. c-1758-04 A. I would however request that any vegetation removal is undertaken outside of the nesting bird season (March - September inclusive). If this is not achievable, then the hedgerow will need to be inspected by an appropriately experienced ecologist within 24hours of the works commencing. Any damage or gaps that may occur as a result of any alterations to existing street lighting columns or utility inspection chamber works (as per 278 General Arrangement, Drg No. S278-901 Rev G) should be infilled with native species to maintain appearance and function.

Yours sincerely,

Dean LeFeuvre BSc (Hons) MCIEEM

Principal Ecologist
