THE CODE FOR SUSTAINABLE HOMES

FINAL CERTIFICATE
(Issued at the Post Construction Stage)

Certificate Number: RDL-0000522-PCS-0048200 **Score: 63**

What Your Code Star Rating Means

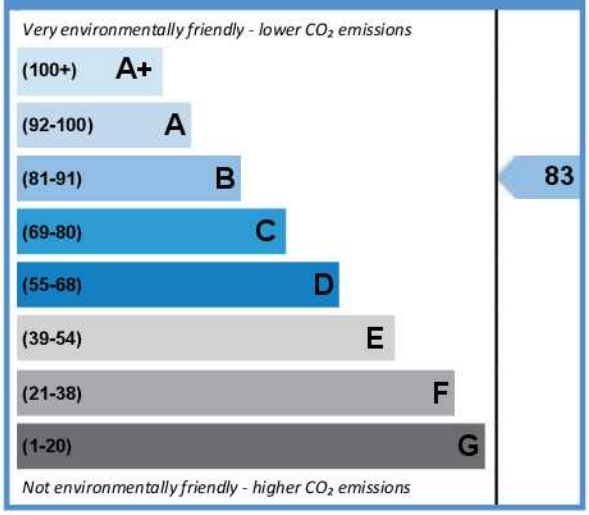

Combined Score	36-47	48-56	57-67	68-83	84-89	90-100
Stars	1	2	3	4	5	6

The Code for Sustainable Homes considers the effects on the environment caused by the development and occupation of a home. To achieve a star rating a home must perform better than a new home built to minimum legal standards, and much better than an average existing home.

How this home scored

Category		Percentage of Category Score attained (10 20 30 40 50 60 70 80 90 100)	What is covered in the category
Energy	52		Energy efficiency and CO_2 saving measures
Water	66		Internal and external water saving measures
Materials	70		The sourcing and environmental impact of materials used to build the home
Surface Water Run-Off	75		Measures to reduce the risk of flooding and surface water run off which can pollute rivers
Waste	100		Storage for recyclable waste and compost, and care taken to reduce, reuse and recycle construction materials
Pollution	100		The use of insulation materials and heating systems that do not add to global warming
Health & Wellbeing	58		Provision of good daylight quality, sound insulation, private space, accessibility and adaptability
Management	66		A Home User Guide, designing in security, and reducing the impact of construction
Ecology	66		Protection and enhancement of the ecology of the area and efficient use of building land

Further detailed information regarding The Code for Sustainable Homes can be found at www.gov.uk/government/publications/code-for-sustainable-homes-technical-guidance

The CO_2 rating is a measure of a home's Carbon Dioxide (CO_2) emissions. This rating is shown on your Energy Performance Certificate as the Environmental Impact Rating. This Certificate is available from the seller, and also includes information on how you can improve the home's performance.

The Code measures the sustainability of a home as a complete package, and takes into account other aspects of energy use as well as wider sustainability issues, such as water and waste.

The CO_2/Environmental Impact Rating is shown here for information only and does not form part of The Code for Sustainable Homes. Neither Robust Details nor the assessment organisation is responsible for the accuracy of this number.

This certificate remains the property of Robust Details Ltd and is issued subject to terms and conditions. It is produced from data supplied by the licensed Code assessor. To check the authenticity of this certificate, please contact Robust Details Ltd.
