Comments Details

Commenter Type:	Other
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Whilst this application is within the Market Bosworth Conservation Area it has not been added to our Consultee inbox and we are therefore unable to answer as consultees. The tree is an important local asset as it is a major tree in the centre of the Conservation Area. Whilst we broadly support the application we do feel that a crown raise to 5M is more than necessary and that a smaller reduction should be considered. During the work every effort should be made to protect the tree from further damage in order that it may be enjoyed by the community for many more years to come.

Kind regards
