Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: The Market Bosworth Society supports positive actions which will benefit tree cover. We regret that some trees will be felled but accept that in doing so it will promote improved specimens nearby. We would remind the Planning Officer that felled trees should be replaced. With appropriate specimens near to the site of the felled tree, wherever practical and possible.

In particular we ask that the owner reconsider the felling of the Tulip tree. We are not aware of many trees of this species in and around Market Bosworth and so would prefer it to be retained if possible.

Overall we are satisfied that the works proposed are sensible and will benefit the remaining trees, whilst permitting the owners to enjoy the amenity of their property.

Kind regards
