Could you please consider the Highway Authority response through the 'Standing advice' procedure with the following comments?:
Consider parking.
Note- On the basis of the submitted plans, the details of car parking spaces are not in accordance with the guidance contained in "The 6Cs Design Guide - Highways, transportation and development". Garages should have minimum internal dimensions of 6 m by 3 m in order to be counted as a car parking space. Where 3 spaces are required, normally at least 2 spaces should be independently accessible to ensure that they will be fully used. Before development commences, an amended plan should be submitted to and approved by the Local Planning Authority.
Note- (If alterations to access required) All works- Area Manager etc.
