Subject: 11/00807/GDOT- Harris Bridge Farm, Sibson

Mr Greenfield,

I am the case officer assigned to your prior notification application for an agricultural lagoon at the above address. I am emailing you to request some clarification on the current application.

1) Can you please provide some supporting text to justify the discrepancy between the size of the agricultural holding as it differs between this application (11/00807/GDO) and the previous application which stated that the previous holding size was 4.07 hectares
2) There is some confusion over the size of the parcel of land in which you are proposing the agricultural lagoon on the current planning application. The application form states that the area of the parcel of land on which the lagoon is to be located is 0.2 hectares. Is this calculation correct?
3) The application form states that top-soil is to be imported onto the site. Can you please confirm whether this statement is correct or whether this top-soil is from elsewhere on your holding?.
4) What are you planning to do with the material excavated to form the agricultural lagoon?

Your earliest response will be appreciated. I look forward to hearing from you in due course.

Kind Regards

Scott Jackson
Area Planning Officer- 01455 255929
