

RSPB Cabin nest box, slate grey

- Made from FSC® certified timber
- Standard 32mm entry hole
- Thick and sturdy
- Attractive cabin-style design
- Handcrafted in the UK

Product description

Beautifully handcrafted with bird safety a priority, our stunning Cabin nest box in slate grey is the perfect addition to any bird lover's garden.

Our meticulous approach to caring for birds has made sure all their nesting needs are met with this fantastic bird box. The internal dimensions of the Cabin nest box are ideal for birds that prefer to use a holed nest box - that could be Blue Tits, Great Tits, Coal Tits, House Sparrows or Nuthatches. You can easily add a 25mm nest box plate to restrict access to only the smallest of these species if you prefer.

The side panel of the nest box can be opened at the end of the nesting season (typically by September) so you can remove any debris and old nesting material, ready for the new occupants the following spring.

Handcrafted in the UK, the Cabin nest boxes are solidly made from FSC® certified timber. The type of timber used is 2cm thick pine wood, containing a high proportion of natural resins which help to protect the wood. The 2cm thickness is important both for longevity of the nest box, and to offer added insulation to the nesting birds.

- Measures 31cm (h) x 26cm (w) x 17cm (d)
- Made from FSC® certified timber
- Standard 32mm entry hole
- Attach to a wall, tree or fence with your own screws (depending on where you are putting it up). A handy hook is provided on the back of the nest box.
- Made in the UK
- Also available in [aquamarine](#) and [dusty pink](#).
