The Landscape Contractor must ensure that plant material is planted in the locations shown and with NO SUBSTITUTIONS made without consulting the Group Landscape Design Department. It is the Landscape Contractor's responsibility to ensure that all underground services have been located and identified in advance of tree pit excavation so that no services are damaged or compromised by tree planting. Any changes to tree positions, species or specifications must be approved by the Group Landscape Design Department. Underground service strips are to be kept free of all plant material.
