Application for Planning Permission

Town and Country Planning Act 1990 (as amended)

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Site Location

Disclaimer: We can only make recommendations based on the answers given in the questions.

If you cannot provide a postcode, the description of site location must be completed. Please provide the most accurate site description you can, to help locate the site - for example "field to the North of the Post Office".

Number	89
Suffix	
Property Name	
Address Line 1	Shilton Road
Address Line 2	
Address Line 3	Leicestershire
Town/city	Barwell
Postcode	LE9 8BP

Description of site location must be completed if postcode is not known:

Site Area

What is the measurement of the site area? (numeric characters only).

1998.00

Unit

Sq. metres

Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Change of use of part of the existing dwellinghouse (Use Class C3) and associated garage/workshop buildings from residential use to private educational use (Use Class F1(a)), providing classroom and teaching facilities for a maximum of 20 children.

The proposal includes associated internal alterations and refurbishment works to provide suitable educational accommodation, together with the construction of a single-storey, full-width rear extension to the existing dwellinghouse. The rear extension is proposed as part of this application and will provide additional space to support the educational use.

The application therefore seeks consent for the change of use, associated internal alterations and refurbishment works, and the proposed single-storey rear extension as a single comprehensive proposal, rather than the rear extension being subject to a separate householder planning application.

Has the work or change of use already started?

- ☐ Yes
☒ No

Existing Use

Please describe the current use of the site

The property is currently in residential use as a dwellinghouse (Use Class C3). A small-scale educational activity is also undertaken within part of the property, currently accommodating approximately 5 children.

Is the site currently vacant?

- ☐ Yes
- ☒ No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- ☐ Yes
- ☒ No

Land where contamination is suspected for all or part of the site

- ☐ Yes
- ☒ No

A proposed use that would be particularly vulnerable to the presence of contamination

- ☐ Yes
- ☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
- ☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:
Walls

Existing materials and finishes:
white/mustard-coloured render,

Proposed materials and finishes:
The existing dwellinghouse is finished in a white/mustard-coloured render, and the proposed single-storey rear extension will be finished in matching render to complement the existing building

Type:
Windows

Existing materials and finishes:
white uPVC windows

Proposed materials and finishes:
The existing dwellinghouse has white uPVC windows. The proposed single-storey rear extension and garage door replacement will use matching or complementary materials, including white uPVC windows, to ensure it integrates appropriately with the existing dwelling.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

- ☒ Yes
☐ No

If Yes, please state references for the plans, drawings and/or design and access statement

Additional Information and Supporting Documents

As part of this application, we are providing additional information to assist the Local Planning Authority in assessing the proposed development. The submission includes the following supporting documents:

Proposed and existing plans showing the layout and extent of the development.

A Design and Access Statement providing further information on the proposal, its design approach and the justification for the development.

Existing and proposed elevations, which clearly demonstrate the existing materials and finishes in comparison with those proposed as part of the development.

The existing dwellinghouse benefits from white uPVC windows, and the submitted elevations provide a clear comparison between the existing and proposed materials to demonstrate how the extension will relate appropriately to the existing building.

Landscape Information

No separate landscape plans have been included as part of the validation submission. This is because the proposal does not involve any changes to the existing landscaping, garden areas, planting, boundary treatments or other external landscape features.

As there are no proposed landscaping works or alterations to the existing landscape, we respectfully request a validation dispensation/waiver from the requirement to provide a separate Landscape Plan. We consider that such a plan would not provide any additional relevant information in this instance, as the existing landscape arrangement will remain unchanged.

Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicular access proposed to or from the public highway?

- ☐ Yes
☒ No

Is a new or altered pedestrian access proposed to or from the public highway?

- ☐ Yes
☒ No

Are there any new public roads to be provided within the site?

- ☐ Yes
☒ No

Are there any new public rights of way to be provided within or adjacent to the site?

- ☐ Yes
☒ No

Do the proposals require any diversions/extinguishments and/or creation of rights of way?

- ☐ Yes
☒ No

Vehicle Parking

Does the site have any existing vehicle/cycle parking spaces or will the proposed development add/remove any parking spaces?

- ☒ Yes
☐ No

Vehicle Type:

Cars

Existing number of spaces:

7

Total proposed (including spaces retained):

7

Difference in spaces:

0

Trees and Hedges

Are there trees or hedges on the proposed development site?

☒ Yes

☐ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

☐ Yes

☒ No

You may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application.

The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's [Flood map for planning](#). You should also refer to national [standing advice](#) and your local planning authority requirements for information as necessary.)

☐ Yes

☒ No

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?

☐ Yes

☒ No

Will the proposal increase the flood risk elsewhere?

☐ Yes

☒ No

How will surface water be disposed of?

☐ Sustainable drainage system

☐ Existing water course

☐ Soakaway

☒ Main sewer

☐ Pond/lake

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

Do you confirm that the development falls below the impact threshold and that no onsite priority habitats are impacted?:

Yes

Please justify the reason why biodiversity net gain does not apply:

The application site extends to approximately 2,000 square metres (0.2 hectares). The proposal comprises the change of use of part of the existing dwellinghouse and associated garage/workshop buildings from residential use (Use Class C3) to private educational use (Use Class F1(a)), together with associated internal alterations, refurbishment works and a single-storey, full-width rear extension. The proposed extension will result in the loss of less than 25 square metres of existing lawn. There will be no impact upon any identified priority habitat, and the proposal will not result in the loss or degradation of more than 5 metres of onsite linear habitat, such as a hedgerow. On this basis, the proposal is considered to fall within the de minimis exemption from the statutory BNG requirements. The Government's current guidance confirms that development is capable of benefiting from the de minimis exemption where it does not impact priority habitat and affects less than 25 square metres of onsite habitat and less than 5 metres of onsite linear habitat. Furthermore, the application site is 0.2 hectares in area, which is within the threshold for the current small-site exemption, subject to the relevant priority habitat provisions. The development will therefore have no substantive effect on the biodiversity value of the site. The limited loss of existing lawn associated with the rear extension is below the applicable de minimis threshold, with the remainder of the existing garden and landscape retained. Accordingly, in our professional opinion, the proposal is exempt from the statutory BNG requirements and a Biodiversity Gain Plan and Biodiversity Metric calculation are not required in support of this application.

Please read the help text for further information why developments may be exempt or not in scope.

Evidence for 'de minimis' exemption claim

[Government guidance strongly encourages the provision of evidence](#) (e.g. plans and metric calculations) to allow the local authority to validate your exemption claim, even where the site is zero rated. Failure to submit sufficient information may result in your application being deemed invalid, delaying progress until it is provided.

Please provide the pre-development biodiversity value of onsite habitats on the date of calculation

0

Please provide the date the onsite pre-development biodiversity value was calculated

26/08/2026

This should be either the date of the application, or an earlier proposed date

Please provide the projected post-development biodiversity value

0

Please provide the reference for any document or supporting file (for example, the completed biodiversity metric calculation) that supports the values and justification above and will allow the local planning authority to confirm that the impact on on-site habitats falls below the de minimis threshold, taking into account any on-site priority habitats.

Industrial or Commercial Processes and Machinery

Does this proposal involve the carrying out of industrial or commercial activities and processes?

☐ Yes

☒ No

Is the proposal for a waste management development?

☐ Yes

☒ No

Hazardous Substances

Does the proposal involve the use or storage of Hazardous Substances?

☐ Yes

☒ No

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

☒ Yes

☐ No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

☐ The agent

☒ The applicant

☐ Other person

Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

☐ Yes

☒ No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

(a) a member of staff

(b) an elected member

(c) related to a member of staff

(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

☐ Yes

☒ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

E.g. All the land is owned by a single individual

☒ Yes

☐ No

Is any of the land to which the application relates part of an Agricultural Holding?

☐ Yes

☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
