Reference – Stables at Wesley Rise

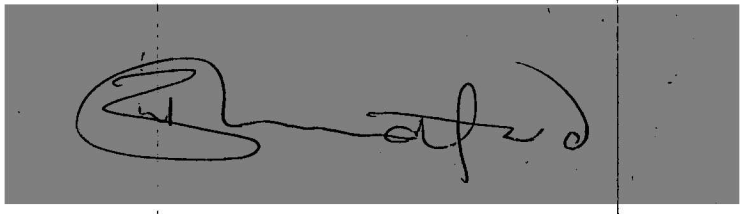

Dear Eleanor ,

Thankyou for your telephone call yesterday . Please find enclosed the two pieces of information required .

1. A coloured image supplied by the stable company showing the colour the stable block will be. This colour is referred to as Golden Brown and is a natural looking treatment.
2. A block plan showing the area of hard standing which will be at the front of the stables. This area will 'complete' the rectangle formed on two sides by the L shaped stables.

I hope this information is sufficient and look forwards to receiving the planning consent through shortly.

Yours Sincerely

Liz Mudford

PRIME STABLES LTD

Hand Crafted Equestrian Buildings

Dear Liz

Thank you for your e-mail, that is great news!

Please see attached images of a recent stable block - although the photographic process does not show the colour exactly, this is a close example. I can if required post you a sample of the shiplap?

Our buildings are treated to a 'golden brown' finish and is a natural looking treatment.

I will speak with Sarah regarding the installation date, but a date will be confirmed on receipt of deposit.

Do not hesitate to contact me if you require any further information.

Kind regards

Kim
