

Delegated Report

Planning Ref: 23/00369/LBC

Applicant: Mr Warren Brett

Ward: Cadeby Carlton Market Bosworth & Shackerstone

Site: The Grey House 3 Church Street Market Bosworth

Hinckley & Bosworth
Borough Council

Proposal: Replacement of windows and flat roof and part render to rear elevation

1. Recommendations

1.1. Grant listed building consent subject to:

- Planning conditions outlined at the end of this report

2. Listed building consent application description

2.1. This application seeks listed building consent for the replacement of existing windows, felt to a flat roof and the part rendering of a rear elevation of a Grade II listed dwelling, The Grey House, 3 Church Street, Market Bosworth.

2.2. The proposal includes the replacement of the existing windows within the garden facing elevations of the two storey 19th century rear range and flat roofed two storey rear extension with similar white painted timber framed multi-glazing bar windows, the like for like replacement of the felt to the flat roof of the two storey rear extension, and the application of white painted lime render to the rear facing elevation of the two storey flat roofed rear extension.

2.3. A separate householder application (reference: 23/00557/HOU) has been submitted and is pending consideration.

3. Description of the site and surrounding area

3.1. The application dwelling is a Grade II listed building located within the settlement boundary of Market Bosworth and within the Market Bosworth Conservation Area. The Grey House is a Regency style two storey house with gable sided roof form and parapet wall with cornice band to the front elevation. It has been extended with a subordinate two storey rear range with dual pitched rear gabled roof and also with a two storey flat roofed rear extension. The original dwelling is constructed with white painted lime rendered walls, Welsh slate roof and white painted timber 12 pane sash windows to the front elevation. The rear range and flat roof extensions are constructed with a mix of red facing bricks and white rendered walls, brindle plain clay roof tiles/felt roof and white painted cottage style multi-glazing bar windows. There is also a red brick and bridle tile dual pitched roof outbuilding that extends along the Barton Road highway boundary.

4. Relevant planning history

11/00223/FUL

- Extensions and alterations to outbuilding to create first floor and external staircase
- Permitted
- 09.05.2011

12/00221/LBC

- Alterations to outbuilding
- Listed Building Consent
- 04.05.2012

12/00225/HOU

- Alterations to outbuilding
- Permitted
- 04.05.2012

5. Publicity

- 5.1. The application has been publicised by a site notice posted within the vicinity of the site and a notice was displayed in the local press.
- 5.2. No responses have been received as a result of public consultation.

6. Consultation

- 6.1. Historic England have confirmed that they have no comments on the application.
- 6.2. No objection has been received from Market Bosworth Parish Council.
- 6.3. Market Bosworth Society support the application as the proposals would improve and preserve this valuable heritage asset. They also request that the former construction features visible through the windows are preserved and remain on view for the education of the students of and visitors to Market Bosworth.

7. Policy

7.1. Site Allocations and Development Management Policies (SADMP) DPD (2016)

- Policy DM1: Presumption in Favour of Sustainable Development
- Policy DM11: Protecting and Enhancing the Historic Environment
- Policy DM12: Heritage Assets

7.2. National Planning Policies and Guidance

- Planning (Listed Buildings and Conservation Areas) Act 1990
- National Planning Policy Framework (NPPF) (2021)
- Planning Practice Guidance (PPG)

8. Appraisal

8.1. Key Issues:

Impact upon the special historic fabric and architectural interest and significance of the Grade II listed building and its setting

- 8.2 Section 16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 places a duty on the local planning authority when considering whether to grant listed building consent to have special regard to the desirability of preserving the building or its setting or any features of special architectural and historic interest which it possesses. Section 66 of the Act places a duty on the local planning authority when determining applications for development which affects a listed building or its setting to have special regard to the desirability of preserving the listed building or its setting or any features of special architectural and historic interest which it possesses.
- 8.3 Section 16 of the NPPF provides the national policy on conserving and enhancing the historic environment. Paragraphs 199-202 of the NPPF require great weight to be given to the conservation of designated heritage assets when considering the impact of a proposed development on its significance, for any harm to the significance of a designated heritage asset to have clear and convincing justification, and for that harm to be weighed against the public benefits of a proposal.
- 8.4 The Planning Practice Guide (PPG) and Historic England Advice Note 2 (HEAN2) Making Changes to Heritage Assets sets out how the policies of the NPPF are expected to be applied and includes guidance on the conservation of and making changes to the historic environment.
- 8.5 Policies DM11 and DM12 of the adopted SADMP seek to protect and enhance the historic environment including listed buildings and heritage assets. The policies seek to ensure that all proposals for the extension or alteration of listed buildings and development within their setting shall only be permitted where it is demonstrated that they are compatible with the significance of the building to ensure that the significance of a listed building and its setting is preserved and enhanced.
- 8.6 The Grey House is a Regency style house and a building of special architectural and historic interest. The listed building entry (National Heritage List England (NHLE) ref 1074291) identifies the building as *“House. Early C19. Render over brick with Welsh slate roof. Two storeyed, four bays with one bay to the left of door which, with radial fanlight is contained in an architrave with moulded console brackets. Windows on each floor are 12 pane sashes with flat heads in plaster architraves. Parapet front with cornice band. Gable end stacks.”*

- 8.7 The listing description identifies that the significance of the building is predominantly focused upon the features and architectural interest located upon the front elevation and the historic interest of the original early 19th century Georgian dwelling. The property has been adapted and extended over time, including a late-19th century two storey red brick perpendicular rear wing of some limited historic interest and a rather utilitarian flat roofed shallow depth rear extension that is of no particular historic or architectural interest.
- 8.8 The proposal includes the replacement of the existing windows within the garden facing elevations of the two storey 19th century rear range and flat roofed two storey rear extension with similar white painted timber framed multi-glazing bar windows, the like for like replacement of the felt to the flat roof of the two storey rear extension, and the application of white painted lime render to the rear facing elevation of the two storey flat roofed rear extension.
- 8.9 The existing windows within the 19th century rear range and flat roofed extension are varied in character and form and include multi-glazing bar cottage style windows, bay windows and French doors. They are white painted timber framed and single glazed. Although they are not historic fabric, they are generally in keeping with the traditional character of The Grey House. It is proposed to replace these windows with white painted timber framed slim-double glazed alternatives within the existing openings. Sectional drawings have been submitted demonstrating that the proportions of the windows would remain slim and the glazing bar detail of the existing windows would be replicated and remain complementary to the architecture of the main dwelling. It is therefore considered that the proposed replacement windows are appropriately specified and reflect the special interest of the main listed building, and as such these would be compatible with its significance.
- 8.10 The existing felt roof over the flat roofed extension is of its time and is of no historic interest. It is proposed to replace it on a like for like basis which would have no particular material effect upon the significance of the listed building.
- 8.11 The existing rear elevation of the flat roofed extension is an exposed red brick. All elevations of the original house have a white rendered finish, as per the earlier 19th century Georgian architectural style, whilst the side elevation of the flat roofed extension and the rear gable of the 19th century extension have also been rendered. The proposed white painted lime rendering of the rear elevation of the flat roofed extension is therefore considered to be an appropriate finish for the facing walls that would reflect the traditional finish of the other elevations of the listed building.
- 8.12 For the reasons outlined above, it is considered that the proposals are compatible with and would preserve the special architectural and historic interest and therefore significance of the grade II listed building, The Grey House and are therefore considered to be in accordance with Policies DM11 and DM12 of the SADMP, section 16 of the NPPF and the statutory duty of Sections 16 and 66 of the of the Planning (Listed Buildings and Conservation Areas) Act 1990.

9. Equality implications

- 9.1 Section 149 of the Equality Act 2010 created the public sector equality duty. Section 149 states:-
- (1) A public authority must, in the exercise of its functions, have due regard to the need to:
 - (a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;

- (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
 - (c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.
- 9.2 Officers have taken this into account and given due regard to this statutory duty, and the matters specified in Section 149 of the Equality Act 2010 in the determination of this application.
- 9.3 There are no known equality implications arising directly from this development.
- 9.4 The decision has been taken having regard to all relevant planning legislation, regulations, guidance, circulars and Council policies, including General Data Protection Regulations (2018) and The Human Rights Act (1998) (HRA 1998) which makes it unlawful for the Council to act incompatibly with Convention rights, specifically Article 6 (right to a fair hearing); Article 8 (right to respect for private and family life); Article 1 of the First Protocol (protection of property) and Article 14 (prohibition of discrimination).

10. Conclusion

- 10.1. By virtue of their design, appearance and proposed use of matching construction materials and replacement like for like nature, the proposed alterations are considered to be compatible with and would preserve the special architectural and historic interest and therefore significance of the grade II listed building, The Grey House. The proposals are considered to be in accordance with Policies DM1, DM11 and DM12 of the SADMP, section 16 of the NPPF and the statutory duty of Sections 16 and 66 of the of the Planning (Listed Buildings and Conservation Areas) Act 1990 and are therefore recommended for listed building consent approval subject to conditions.

11. Recommendation

- 11.1 **Grant planning permission** subject to:

- Planning conditions outlined at the end of this report

11.2 Conditions and Reasons

- 1. The works to which this consent relates shall be begun before the expiration of three years from the date of this consent.

Reason: To conform with Section 18(1) of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

- 2. The development hereby permitted shall not be carried out otherwise than in complete accordance with the submitted application details, as follows: Location Plan at scale 1:1250, Block Plan at scale 1:500 and Proposed Floor Plans, Roof Plan and Elevations Drawing No. AVD-770-HRB-PL02 received by the local planning authority on 6 June 2023 and window detail received by the local planning authority on 22 June 2023.

Reason: To ensure a satisfactory form of development in accordance with Policies DM1, DM10, DM11 and DM12 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

3. The materials to be used on the external elevations of the proposed alterations shall match the corresponding materials of the existing dwelling, being matching white painted lime render to the specified rear elevation wall, white painted timber framed cottage style windows and like for like replacement felt to the flat roof.

Reason: To ensure that the development has a satisfactory appearance in the interests of visual amenity to accord with Policies DM10, DM11 and DM12 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).
