Good morning,

Thank you for re-consulting Leicestershire Police in relation to the above application.

I have reviewed the amended documentation, and my previous comments remain relevant.

I would add that the inclusion of a path from the car park to reception improves accessibility and addresses my initial concerns in this regard.

Additionally, having reviewed the elevations and available images, the hotel bedrooms will provide natural surveillance over the designated parking area. My recommendation for CCTV to support overall security remains relevant. This will further enhance both actual security and the perception of safety.

I also note the presence of a bin shelter, which is positioned away from the main building but remains within the sightlines of both the hotel and golf club. This is a positive measure to help mitigate risks such as arson and fly-tipping; however, it should also be covered by CCTV.

I would also add that reception should ideally be staffed at all times where possible, to provide continuous oversight and support. Any damage, including defective lighting, doors, windows or poorly maintained landscaping, should be efficiently repaired and maintained. A well managed environment reinforces a sense of ownership and control, reducing the likelihood of crime and anti-social behaviour.

All doors and windows should meet PAS 24 standards. Internal doors should be fitted with door viewers and windows should include restrictors where appropriate to enhance occupant safety and security.

I have no further comments to make.

Should you require any further information, please do not hesitate to contact me.

Kind regards

Megan Wood
8796
Designing Out Crime Officer
Leicestershire Police
