

CONSULTATION TEMPLATE RESPONSE FROM LEICESTERSHIRE COUNTY COUNCIL:

ECOLOGY AND BIODIVERSITY PLANNING ADVICE

COUNTY, DISTRICT OR BOROUGH	Hinckley and Bosworth Borough Council
APPLICATION NUMBER	26/00215/FUL
ADDRESS	Dawes And Son 16 King Street Barwell Leicester Leicestershire
DESCRIPTION OF DEVELOPMENT	Change of use from a commercial building to 9 self-contained residential flats, the erection of a first floor side extension over a undercroft and a increase in ridge height to create a new floor
PLANNING CASE OFFICER	Sophie Iliffe
DEPARTMENT	Ecology
PLANNING ECOLOGY OFFICER	Karley Khan
DATE OF COMMENTS	15 June 2026
ECOLOGICAL DOCUMENTS REVIEWED:	
N/A	
SUMMARY RECOMMENDATION:	
No comment	
No objection (for recommended conditions or informatives- see below)	
Recommend Refusal	
Holding Objection - Further information required	✓
REASON FOR RECOMMENDATION:	
We have reviewed the updated proposal plans, however no ecological information has been provided. As such, our original comments remain valid and have been included below for reference. <i>Ecological Survey Work;</i> - Given sections of the existing building are to be demolished/extended/subject to works, a Preliminary Roost Assessment (PRA) is required in the first instance, in accordance with the latest Bat Conservation Trust Good Practice Guidelines. Depending on the results of the PRA, further survey work in the form of dusk emergence survey(s) may be required. - A walkover of the site and consideration of the potential impact of the development on designated sites, other protected and Priority species, habitats and important ecological feature(s) on-site and in the surrounding area should also be assessed where relevant. - All of the ecological survey work will need to be undertaken by suitably licenced and experienced ecologist(s), during the relevant optimal period and in accordance with the best practice guidance/methodology.	

- Holding objection for ecological survey work to be undertaken.

Ecological Reporting;

- No report has been provided in order to assess potential impacts from the development on biodiversity and ecology. An accompanying ecology report(s), with relevant plan(s) and photos, will need to be submitted detailing the results of the ecology survey work, mitigation and enhancements. This information would allow the planning application to be assessed in accordance with the requirements of the NPPF and ODPM Circular. The report should also contain a statement as to whether BNG applies and rationale if not.
- **Holding objection for suitable supporting ecology report(s).**

The results are required prior to determination because paragraph 99 of the ODPM Circular 06/2005 highlights that: *“It is essential that the presence or otherwise of protected species, and the extent that they may be affected by the proposed development, is established before the planning permission is granted, otherwise all relevant material considerations may not have been addressed in making the decision.”*

ANY RECOMMENDED CONDITIONS TO BE APPLIED:

- TBC

ANY RECOMMENDED INFORMATIVES TO BE APPLIED:

- TBC

IN THE CASE OF DISCHARGE OF CONDITIONS ONLY:

(Please confirm which condition(s) is/are being discharged)

- N/A

PRE-DEVELOPMENT HABITAT BASELINE FOR BIODIVERSITY NET GAIN (BNG)	
THIS IS THE MINIMUM NATIONAL ESSENTIAL INFORMATION REQUIREMENTS (PPG paragraph 11) AND MUST BE SATISFIED PRIOR TO DETERMINATION:	
Confirmation that development is subject to statutory biodiversity gain condition	N
Pre-development Habitat Plan of existing onsite habitat (to scale)	TBC
Pre-development Habitat Value (on date of application or earlier)	TBC
Completed Metric Calculation Tool	TBC
Statement of Habitat Degradation where present (with dates and details)	TBC
Reason for proposing an earlier date if applicable (ie. degradation)	TBC
Description of Irreplaceable Habitat where present	TBC
SMALL SITES METRIC ONLY: “Competent person” information (ie. qualifications, skills, experience)	TBC
BNG METRIC INFORMATION missing or incorrect:	
Incomplete or incorrect cells are shown in metric (eg. habitat quantity, type or condition, strategic significance)	TBC

POST DEVELOPMENT PROPOSALS FOR BIODIVERSITY NET GAIN (BNG)	
PLEASE NOTE: THIS IS NOT ESSENTIAL INFORMATION PRIOR TO DETERMINATION. Post-development information is indicative only ; final proposals must be confirmed at Biodiversity Gain Plan statutory condition stage.	
ON-SITE SIGNIFICANT* BNG is proposed (If Y, please see later table)	TBC
OFF-SITE APPLICANT-OWNED BNG is proposed (ie. Land shown on plan within the “blue line” boundary and inserted in “offsite” tab of statutory metric)	TBC
PLEASE NOTE: Where applicant-owned off-site or significant on-site BNG proposals are present, these should be secured and monitored for 30 years. The determining authority is responsible for monitoring for compliance.	
OFF-SITE PURCHASE** of BNG	
BNG units purchase from a third party to achieve 10% BNG uplift	TBC
Statutory biodiversity credits	TBC
PLEASE NOTE**: Where purchased BNG units are proposed, any purchased units from the national register are secured and monitored for 30 years by conservation covenant, separately from this planning application process.	

POST DEVELOPMENT PROPOSALS: *TYPE OF <u>SIGNIFICANT ON-SITE</u> HABITAT PROPOSED: (using the current government definition ¹)		
SIGNIFICANCE AS DEFINED IN PPG	POST DEVELOPMENT HABITAT TYPE PROPOSED	NUMBER OF UNITS
Medium or High Distinctiveness		
Large number of units at Low Distinctiveness		
Significant increase in Distinctiveness, Condition or Area		

Note for applicants: Please be aware that this advice is provided to the Local Planning Authority through a Service Level Agreement between the Local Planning Authority and Leicestershire County Council Ecology Team. Its purpose is to discharge the legal duties of the determining authority under The Local Authorities (Functions and Responsibilities) Regulations (2000), Regulations 4.

If you have any queries about the content, please correspond directly with the Planning Officer assigned to the planning application or discharge of condition application. We are unable to respond directly to applicant enquiries regarding the advice that we have provided to the determining authority.

The following legislation is used to assist in the assessment of planning applications:

Legislation source	Reference
National Planning Policy Framework	Paragraphs relevant to biodiversity, biodiversity net gain, ecological connectivity and protected species
Environment Act 2021	Mandatory Net Gain Biodiversity Duty Local Nature Recovery Strategy
