Subject: Re: FW: 25/01150/FUL - Land Adj 6 Hunts Close, Botcheston

Hi Faizal,

I've amended all points made by County Ecology.

I had to do this on the planning portal.

First point the on the planning portal - Initially I stated the application meets the de minimis exemption, which I was advised it did by the biodiversity consultants recommended by the planning portal, Joe Bloom, so I've amended this.

Second point - The Site Location Plan redline boundary and area covered by the Preliminary Ecological Assessment and Biodiversity Net Gain Assessment did not correlate because I hadn't put the access track on the site location plan on the planning portal as it was a nearly impossible to do being as it's such a small strip of land, I have amended this. (it's not great but it gives you the idea!)

Thirdly - The Planning Statement, Landscaping Statement and Design and Assess Statement refer to a 10 m × 140 m native woodland and hedgerow planting strip along bottom boundary whereas the Preliminary Ecological Assessment and Biodiversity Net Gain Assessment refer to two internal native hedgerows, hedgerow along the southern boundary and planting 14 new trees. That's my mistake, I thought I could refer to the 10 m × 140 m strip as woodland but it's a scattered planting of trees and I thought I'd put in the two internal native hedgerows but as they're an integral part of the plan, I have amended The Planning Statement, Landscaping Statement and Design and Assess Statement on the planning portal.

Along with Nathalie's amendments I hope these changes are what's required and I hope you're all managing in this heat.

Many thanks,
Sarah.

Good afternoon Sarah,

We've received the attached comments from Leicestershire County Council Ecology. They've made a holding objection to your application in relation to ecology and have requested some additional information.

I can see from your application that you have employed the services of Nathalie Cossa - Cossa Ecology to deal with the ecology matters in relation to this application. I therefore advise forwarding these comments onto Nathalie and she should hopefully be able to address and respond to the points raised, which can then be submitted to me directly.

In terms of the general progress of the application, we've not received any objections to the application and I have also completed my site. The only pending matter at the stage is regarding the ecology concerns.

I am mindful that the application is due for determination on 8 July, but am happy to extend the determination deadline to allow you time to address the ecology concerns. Are you happy to agree to an extension of time until 20 July 2026? We can always agree a further extension of time if needed.

<rawnpuremarketing@gmail.com> wrote:

Hi Rudi,

Thanks so much for all your patience while I organise the BNG report.

I finally have it and have attached it to this email.

I've also attached amended statements and docs to include the barn.

If there's anything else please let me know.

I wonder if it's worth adding a cover letter explaining what we're doing, growing vegetables in a way that helps the environment and increases biodiversity instead of striping it and that local food production is so important especially at the moment, I really hope the planning at Hinkley and Bosworth will support this, that I consider essential work.

Thanks so much again Rudi,

All the very best,

Sarah.

Hi Rudi,

Thanks so much for talking with me earlier today.

The ladies coming out on Thursday to do the BNG report and she says she can have it ready for me by the end of next week, which is lovely of her so I'm going to go ahead and hope I can get moving and catch this growing season.

I've attached the plans for the additional barn. There's a cold store on there for storing the veg we produced, a barn for storing the tractor, trailer and attachments we were lucky enough to get from a national lottery grant and a barn for seedling sowing and saving, plant drying to save seeds, vegetable prep and storing and a place for the volunteers and community to sit if it's raining and have lunch. Any thoughts and advice on this greatly appreciated.

Many thanks,

Sarah.

On Fri, Apr 10, 2026 at 11:14 AM Rudi Simpson <Rudi.Simpson@hinckley-bosworth.gov.uk> wrote:

Hi Sarah,

If you want to add a tractor store to the application, you can send it directly to me and I will make the changes. Just ensure that we have

- Proposed elevations and floor plans of the store, to scale 1:50 or 1:100 with either a scale bar or metric measurements
- An amended site plan/block plan to scale 1:500 that includes the tractor store

- You may also need to amend the site location plan if the tractor store is to be situated outside of the original red line boundary.

Hi Rudi,

I hope you're doing well.

Apologies for my slow action, I've been busy getting quotes and trying to understand the BNG, it's very complicated and appears to be an exercise in buying "credits" in the environment.

After this information I'd like to amend my application to include a barn please to put our newly acquired tractor in as we have no where to store it.

How do I amend my application to include this please? My application appears to be locked on the planning portal. Can it be released so I can amend it please?

Then I will pay the BNG consultation firm I've found and use my "credits" from the woodland I'm creating and the 100's of meters of hedge rows we're planting for this purpose.

With everything that's going on at the moment I'm feeling desperate to grow vegetables and food.

Many thanks,

Sarah.

Subject: Re: Invalid planning application - 25/01150/FUL Land Adj 6 Hunts Close, Botcheston

Hi Rudi,

Would you please make your team leader aware that it was the professional opinion of Joe Blooms, the company recommended by the planning portals itself, that we were exempt from the biodiversity net gain requirements. They aided my application and told me what to input.

Would you also please make them aware that we are a co-operative of organic vegetable growers and that our sole aim is to work in harmony with the natural environment.

We are planting over 300 meters of new hedge rows and creating a 1400m² woodland coppice.

That the three poly tunnels are not a permanent structure and the ground underneath/inside the tunnels will still be there, going only from grass to vegetables with no loss to biodiversity.

I'm already having to put in full planning for a temporary structure with so much benefit to the locality, maybe they would amend their view?

Sincerely,

Sarah.
