Comments:
The proposal is located in a position which has much less impact on the listed barn than the previous proposal. It is accepted that the farm has to operate efficiently which is for the benefit of the future maintenance of the listed structure and this type of barn is necessary for the efficient running of the operation. However the colour of the barn will be critical to ensure it, to a degree, merges into the

countryside. I would recommend that Vandyke brown is used for the walls/door and grey/grey for the roof. I have no further comments to make.
