Please state why a Lawful Development Certificate should be granted

The case of *F W Gabbittas v SSE and Newham LBC* [1985] JPL 630 established that the applicant's own evidence does not need to be corroborated by "independent" evidence in order to be accepted. If the LPA have no evidence of their own, or from others, to contradict or otherwise make the applicant's version of events less than probable, there is no good reason to refuse the application, provided the applicant's evidence alone is sufficiently precise and unambiguous to justify the grant of a Certificate "on the balance of probability".

The sworn declaration provided by the applicant combined with this statement and supporting documents are sufficiently precise and unambiguous to demonstrate the lawful planning designation subject to this application. There is no suggestion the applicant has taken any positive steps to disguise historic use of the land during the determination of applications 24/00454/OUT and 23/00465/CLE, or any other measures that would warrant forfeiting the statutory protection afforded by the 10 year time limitation of the 1990 Act, and as such a Certificate of Lawfulness should be issued on this basis.

With respect to the Authority, is the applicant and/or agent one of the following:

(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

- ☐ Yes
☒ No
